## Why UNDC?

We adhere to a Quality Management System plan based on careful attention to customer service, metrics to measure adherence to quality, and prompt action to correct and prevent deficiencies.

The ISO 9001/TL 9000 certification does not increase the cost of our services, just the value of them. Our operation in California is certified for network engineering and installation services. However, the QMS is applied across the entire corporate operations to all services uniformly.

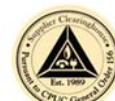

## About UNDC

Universal Network Development Corporation is a full-service employer, offering health benefits, life insurance, and 401(k) plan. We are headquartered in Sacramento, CA, with offices in Brewster, NY, Austin, TX and Cambridge, OH and offer our services nationwide.
